Beer is arguably one of the most versatile beverages on the market. Between St. Patrick's Day, Memorial Day, all of summer's boat parties and barbecues, up to the first kick off of college football and beyond, there always seems to be an upcoming occasion that calls for an ice-cold

#### beer.

With that said, the beer market is a very saturated one, and finding that perfect beer for the occasion is much easier said than done. (How are you supposed to tell the difference between every selection in that tedious list of craft beers or IPAs, anyway?) That's why we put together this roundup of the best places to buy beer online, sorted by your preferences (you're welcome). Whether you're looking for a new monthly beer club to expand your horizons or are looking to make a bulk order of an old reliable, we've got you covered.

#### **Pros and Cons**

#### Pros

- Delivers up to 24 bottles per month
- Free shipping
- Gifting options available

#### Cons

- Cannot customize shipments
- Beers not available à la carte

#### Overview

The Original Craft Beer Club does all the legwork in terms of sourcing and shipping the best craft beer around to you. As far as subscriptions go, it really doesn't get any easier than signing up for a monthly membership and letting the company's team of experts do what they do best. All beers are sourced from independent craft breweries, and best of all, they're shipped right to your door free of charge.

For better or for worse, however, you don't have a lot of options to customize your shipment for the month. If the club features a beer you don't enjoy or don't feel like trying, you will then skip that month rather than getting the option to swap it for something else.

While Brewvana does a terrific job of highlighting some of the <u>best under-the-radar beers</u> from across the country, you won't find your new favorite imported beer here. German beer is famous the world over and for good reason. Many of the oldest breweries in the world are located in Bavaria, and some of the most famous ones — like Hofbräu and Weihenstephan — have been using the <u>same brewing techniques for hundreds of years</u>. So, what better way to dive into the world of German beer than to explore the ones that Half Time Beverage has to offer?

Many of Half Time's German beers are available individually, but we recommend going with either the German Beer of the Month Club or buying the Best of Germany Beer Gift Box. Both of these feature some of the best pilsners, doppelbocks, and hefeweizens on the market. Prost!

## Why You Should Try It

With over 650 breweries from 47 different states featured in its beer selection, you will never get bored with the variety Tavour has to offer.

#### **Pros and Cons**

#### Pros

There is no shortage of variety when it comes to Tavour. This app-based beer delivery service features hundreds of high-quality beers from all over the country. Not only that, but Tavour's team has sampled over 10,000 beers and only sells their favorites, so you know you are only getting the best of the best. Talk about a great combination of quality and quantity!

One of the main drawbacks to Tavour, however, is the website's lack of usability. The site serves mainly to drive traffic to the Tavour app, and you can't actually place orders on the website. All orders must be placed through the app, which is only available for iPhone. (So, if you're an Android user, you'll have to borrow a friend's phone to place your order.)

## **Pricing and Plans**

## **Final Verdict**

While each of these vendors and subscriptions offers something special in their own right, we gave The Original Craft Beer Club the title of best overall. Not only does this service deliver the most beer per shipment out of every company we included on this list, but its boxes are specifically designed by experts in the industry. With The Original Craft Beer Club, you get the best of the best every month at a very affordable price.

## **Frequently Asked Questions**

## **Frequently Asked Questions**

• Can You Order Beer Online in the U.S.?

The short answer is yes, you can absolutely buy beer online in the U.S. As you can see from this list, there are countless vendors that cater to various beer tastes and preferences. The more complicated answer, however, is that it depends on which state you live in. Some states, like Alabama and Utah, have strict laws against shipping alcohol — so make sure the service you want to use is willing to ship to your address.

• Where Can I Buy Schlitz Beer Online?

Schlitz, as they say, "the beer that made Milwaukee famous," is one of the most recognizable labels in all of brewing. While the old brewery sadly went defunct over 20 years ago in 1999, the Pabst Brewing Company in Los Angeles continues to produce that famous red label. You can buy it from many major retailers as well as on Drizly.

• Can I Ship Beer to Friends and Family?

You can ship beer to friends and family, and many sites actually have specific gifting options. As we addressed above, however, you'll need to do your homework to make sure that whichever service you plan on using will deliver to the state your friends and family live in.

## Methodology

In order to create our list of the best places to buy beer online, we evaluated dozens of different sites and vendors on an extensive list of criteria. These include, but are not limited to, customer reviews, inventory, price, variety of memberships, and availability of imported beers. After an extensive review, we compiled this roundup in order to make your beerbuying journey that much easier.
